Team Charter

Signed by: Andre Stransky

This charter serves as a foundational document to guide our team's collaboration, outlining our goals, roles, expectations, and communication practices.

---

1. Mission, Goals, and Objectives

Our Mission

Why are we engaging in this project? What unique value do we intend to bring?

> We hope to familarize ourselves with the SWE process of working in a team enviornment. Beyond simple motivations like achieving an excellent grade or building our resumes, we all truly desire to get the most out of this course project by strengthening our technical and people skills for the advancement of our future careers. We are serious about our work because we want to learn the most and view this project as a glimpse of what is to come for our futures.

Project Goals

What outcomes or milestones does the team aim to achieve together?

- **Goal 1:** Learn and familiarize ourselves with the SWE process
- **Goal 2:** Be proud of our work
- **Goal 3:** Build technical and people skills

Personal Goals

What do you individually hope to achieve with this project? How can this project help your personal development?

- **Personal Goal 1:** Get better at Web Development
- **Personal Goal 2:** Improve communication skills
- **Personal Goal 3:** Achieve an excellent grade that reflects work
- **Personal Goal 4:** Be on time
- **Personal Goal 5:** Becoming more organized and structured

2. Core Values and Principles

What core values and guiding principles will our team uphold?

- **Availability and Reachability:** We stay responsive in team channels and communicate early.
- **Accountability:** We follow through on assigned work and update the team honestly on progress.
- **Effort:** We bring consistent energy to meetings and assignments, supporting each other in the process.
- **Focus on Priorities:** We align our work with immediate goals first and avoid distractions.
- **Open-Mindedness:** We listen to different viewpoints, give respectful feedback, and allow for constructive criticism.

---

3. Roles and Responsibilities

Team Strengths and Weaknesses

What strengths and unique skills does each member bring? What are our collective weaknesses and how can we address them?

- **Strengths:** Python, React.js, JavaScript, Markdown, HTML and CSS, C++, Video Editing (Final Cut/iMovie)
- **Weaknesses:** We acknowledged areas we have the less experience in: QA Testing, Consistent Documentation. We agree that we must be willing to learn these skills and will come to these situations with that mindset. We also will remind ourselves of our values, collaborate, and work together in these moments to accomplish these tasks.

Roles (*Temporary Until Project Released*)

Clearly specify roles within the team. Account for logistical responsibilities.

- **Backend Dev, Testing:** Abdurrahman Syed
- **Lead, Frontend Dev, Secretary:** Andrew Le
- **Frontend Dev, Design:** Andre Stransky
- **Backend Dev, Testing:** Gurnoor Bola
- **Full-Stack Dev:** Jason Wang
- **Project Manager:** Justine Le
- **Lead, Backend Dev:** Mani Schabani-Qassri
- **Backend Dev, Design:** Paul Montal
- **Backend Dev:** Sahil Dalal
- **Frontend Dev, Github Admin:** Scott Pham
- **Frontend Dev, Design:** Sophia Ali

4. Collaboration and Communication

Availability and Expectations

Clarify what you need from one another to succeed. Discuss individual availability and schedules.

- **General Availability:** Discussion times (Mon) and lab times (Wed) are baseline for meetings. Depending on deadlines, further meetings can be scheduled (weekends). We will use When2Meet.
- **Expected Time Commitment:** We should commit at least 4 hours a week.
- **Response Time:** As promptly as possible, no later than a day to respond.

Communication

Define your team's communication strategies.

- **Primary Channel:** Slack
- **Secondary Channel:** Email
- **Meetings:** Once a week (1hr), baseline will be discussion times (Mon) and lab times (Wed)

---

5. Conflict and Contribution Management

Conflict Resolution

Discuss your conflict resolution process.

- **Step 1.** Direct **communication** with involved parties
- **Step 2.** Hold full team discussion to reach a consensus

Ensuring Fair Contribution

Outline the approach to ensuring fair and equal contributions from all team members. Define how to address situations where group "rules" are not being followed.

- **Tracking:** We will all communicate with one another in our meetings ane be active in Slack channels to discuss our work
- **Addressing Issues:** The team will first have a conversation/meeting to understand the situation. If the issue persists, it will be addressed following the conflict resolution steps
